

RENOWN EARTH

COMPANY PROFILE

OUR STORY

RENOWN ELECTRICAL SYSTEM set its foot as an electrical supply and equipment trading and services company. Over the years, the company has earned a reputation for excellence and professionalism for continuously striving to meet - and even exceed - standards that set the climate for a sustainable business relationship with its clients.

As an earthing solution specialist, we offer chemical earthing products ranging. From GI earthing, pure copper electrode, Copper Bonded electrode, Copper bonded Rod, solid copper rod, solar earthing rod, Backfill compound, Lightning Arrester, Surge Protection Device, earthing clamp, Stainless Steel Rod and earthing strips.

Our team is composed of technically skilled and highly dedicated personnel working cohesively to promote value-added solutions with a competitive pricing structure to suit your needs.

We also engage in electrical product installations, testing and commissioning, preventive maintenance, automation, and energy-saving solutions. Our commitment is to deliver outstanding results that will exceed your expectations.

We look forward to providing our services and products to your company. Rest assured that we live by our service commitment: Delivering Results, Exceeding Expectations.

Founder

Our Vision

Renown Earth firmly believes that electricity is the cornerstone of high-quality life. There will be a never-ending need for products and services to harness and maximize their full potential and use. In doing so, we will be the best-in-class provider of top-notch electrical products and services.

We will be recognized by:

Our Customers

- As a dependable and reliable distributor and seller of electrical power and control products and services
- As a proactive company capable of competing in all facets of the marketplace through constant improvement and innovation
- As a family-owned business that satisfies customers with easy and hassle-free transactions

Our Suppliers

- As a creative, experienced and top seller of electrical products in the industry.
- As a company who appreciates and recognizes that sustainable partnerships are essential to the company's success.

Our Employees

- As an employer who values the dedication and commitment of its employees
- As an innovative and technologically upfront company that ensures employee competence and advancement
- As an employer who guarantees a safe working environment
- As an employer who engages in training and certification programs to help employees progress in their personal and professional growth

Our Industry

- As a partner that promotes collaboration by engaging in trade associations.
- As a business that makes a difference to the quality of life through the impact of excellent products, services, and solutions.

MISSION

Renown Earth is committed to providing the highest quality products and services exceeding our client's expectations. As we carry out our mission, we shall be guided by values of integrity, reliability, commitment, and collaboration.

Our commitment to service is to:

*Delivering Results,
Exceeding Expectations*

SERVICES

- Earthing Design
- Earthing Installation
- Testing and Commissioning
- Preventive Maintenance

OUR MAIN PRODUCTS

GI EARTHING ELECTRODE

It helps to conduct fault current safely to the ground and protect people from current shock due to lightning. Galvanized Iron is prepared by depositing a film of zinc over iron through the process called galvanization.

PURE COPPER ELECTRODE

The pure copper electrode is made up of pure copper derived from its ores. It has high conductivity and is considered one of the best electrodes out there in the market. Due to its higher conductivity, it is preferred over GI earthing electrode.

LIGHTNING ARRESTER

The lightning arrester helps in protecting against lightning strikes. It provides a low impedance path to the ground for the current. It has a very strong central ion generating system that generates ions and it does not require any external source of power supply.

STAINLESS STEEL ROD (SS ROD)

Offering you a complete choice of products which include SS rod. We are the leading supplier of Stainless Steel Rod in India. We can supply various sizes of stainless steel rod at the most competitive prices in the industry.

COPPER BONDED ROD

Copper Bonded electrode is manufactured with the help of electrolytic cell through the process called electroplating. In this process, mild steel is coated with copper. Electrode helps in passing fault current in the ground.
